DETAILED ACTION

1. Applicant's July 6, 2009 Request for Reconsideration has been reviewed. Subsequently, the previous rejection is withdrawn.

Claim Rejections - 35 USC § 103

2. Claims 1-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lent et al., US 6,405,181.

Lent discloses a credit management system, e.g. Figs. 1-14 and related text, comprising a credit application, e.g. 208, at least one credit approval criterion, e.g. credit bureaus report, Farr risk score, a first web server, e.g. 1406, an applicant's computer, e.g. 1402, another web server, e.g. 110, each communicatively coupled to form a network. Lent does not disclose a buyer's computer nor email communication with the network. Official notice is taken that applicant's representing buyers has been common knowledge in the electronic commerce art, as has been using email to communicate. To have provided such for Lent would have been obvious to one of ordinary skill in the art.

It is noted that a second server is not positively recited from the claim language. The Examiner is acutely aware of the prosecution history of the present application and laments the fact it has not been brought to a close, given previous communications, e.g. 10/10/08 Examiner Interview Summary. However, the present rejection is deemed warranted. Applicant's REMARKS have been reviewed, but are moot in light of the new grounds of rejection.
